

APSI – FDU 3500

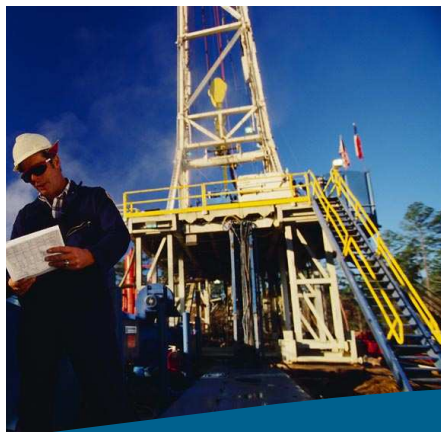

The FDU-3500 is a fixed docking unit to use your GEN II handled Thuraya terminal So-2510 or SG-2520 in an office or home environment.

It allows access to voice, fax and data transfer services.

This docking unit can be put on a desk or fixed on a wall, and the Thuraya handled terminal can be locked on the unit with a key.

The main characteristics are :

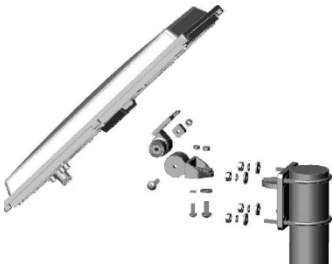

- Fixed use of your handled Thuraya terminal
- Voice, fax and data transfers
- Possibility to use it on a ship with an optional maritime remote antenna
