ENSURE ALL SYSTEMS ARE GO

- Make a phone **CALL** on the Iridium GO! App.
Note: Use full international dialing sequence (00+ country code + phone number)
- Send an **SMS** via the Iridium GO! App.
Note: Use full international dialing sequence.
- Send **QUICK GPS** to ensure you are receiving regular **TRACKING** updates on the Iridium GO! App
- Send/Receive emails to your new xyz@myiridium.net email address on the Iridium Mail App.
- Post a **TWEET** using your Iridium Mail App.
Note: Outgoing tweets get stored in your Spool/Outbox folder in Mail and require a Send/Receive sync to push them out.

PROVIDE YOUR IRIDIUM DETAILS TO FRIENDS AND FAMILY

- Provide your friends and family with your Iridium **+8816** number.
Note: All calls to this number would be considered as an international call and will be billed to the caller accordingly at their long-distance rate by their telephone service provider.
Note: If you expect incoming calls from the United States, consider registering for a **+1** number that will allow friends and family in the U.S. to call your satellite phone number at domestic rates. For more information on how to obtain a **+1** number, contact your Service Provider.
- Provide your friends and family with your Iridium email address xyz@myiridium.net.
- Provide your friends and family with this webpage: <https://messaging.iridium.com/>, so they can send free SMS messages to your Iridium number.

If you need assistance setting up your Iridium GO!, please contact your Service Provider.
