

Thuraya XT-PRO Dual

- **Dual-mode: integrates a satellite and GSM SIM card** Satellite: coverage in over 150 countries
- **GSM: 2G/3G/4G coverage depending on the country**
- **SOS button**
- **Satellite mode call notifications**
- **Geolocation and tracking features**
- **Shock, water, and dust resistant (IP65 / IK05)**
- **Navigation system: GPS, Beidou, Glonass, and Galileo**
- **Flexible terminal use: portable and fixed use with docking station**

THURAYA XT-PRO Dual

The Thuraya XT-PRO Dual is the first dual-mode, dual-SIM satellite phone, allowing users to stay connected both on the Thuraya satellite network (covering 150 countries) and on GSM networks with 2G, 3G, and 4G capabilities. Equipped with two SIM card slots, the Thuraya XT-PRO offers great flexibility, allowing seamless switching between networks as needed, thanks to the "Always On" feature.

The device supports a wide range of navigation systems, including Glonass (Russia) and Galileo (Europe). It features a high-capacity battery with up to 11 hours of talk time and 100 hours of standby time. The Thuraya XT-PRO Dual is also highly durable, thanks to Gorilla® Glass and its shock, water, and dust resistance, making it a reliable device in all conditions.

Specifications

Features

Dimensions	138 x 57 x 27 mm
Weight	232 g
Services	telephony, SMS, SMS to email, Fax
Battery	3 400 mAh Talk time : Up to 11h Standby : up to 100h
Screen	2.4" Gorilla® Glass screen with special display for outdoor use
